

# Business and Finance Program

*Eastlake High School*

## Program Information

Our program offers various classes to promote human development and encourage our students to do their best. They will enjoy learning about Microsoft Office Programs, Human Resources Management, Banking and Financial Services, and even have an opportunity to find a business career in a field they love!

Our main goal is to ensure our students gain employable skills and attain certifications in our classes.

While students enjoy their time with us, they can partake in our Career and Technical Student Organization, Business Professionals of America. This organization supports future leaders in order for them to accomplish goals in leadership and professionalism. BPA students are involved in community service projects and participate in competitive events that will prepare them for the business world and possibly qualify them to receive a graduation stole!

### VITA Taxes

BPA Students received certifications to help our community with free taxes.

### Community Service

Students volunteered during an adoption event to help a local animal rescue.

### BPA Regionals

Students participated and volunteered for BPA competition hosted at Eastlake HS.

## "Together We Are Better"

### Business Course Sequence

- Business Information Management I (9th Grade)
- Business Information Management II (10th Grade)
- Human Resources Management/Banking and Financial Services (11th Grade)
- Business Practicum (Seniors Only)

### About Us

@CRodriguez\_EHS

At Eastlake High School we want to provide various resources in a safe and positive learning environment to promote higher education learning. In doing so, each of our classes provides what is needed to have a higher successful rate in our student's future.
