

Architecture and Construction Building Maintenance/Plumbing

The Architecture and Construction Career Cluster focuses on designing, planning, managing, building, and maintaining the built environment. Students will learn how to use hand and power tools, and will graduate college and career ready.

Note: High School credits earned in middle school will open up additional opportunities to take electives in high school. All middle schools provide opportunities to take Algebra and Foreign Languages.

Students will learn:

- Work Safety Procedures
- Cleaning Duties
- Painting
- Fix, Repair, and Install Plumbing Fixtures
- Preventive Maintenance
- Routine Maintenance
- General Fix and Repair
- Furniture Refinishing
- Heating and Cooling (HVAC)
- Miscellaneous Duties

CTED Building Maintenance And Plumbing Class

Eastlake High School

- In Building Maintenance Technology, students will gain knowledge and skills needed to enter the field of building maintenance as a building maintenance technician or

supervisor. With this class, you could be a: Building Maintenance Manager, Painter, Plumber, Electrician, HVAC Technician, Constructor, Carpenter, and many more. You can even have your own business. The options are endless.

Students will have the opportunity to gain experience in actual work fields such as apartment complexes and commercial buildings.
