| I. Welcome & Roll Call- Science Absent, EPAC Rep Absent, Approve Minutes from September. They were accepted as read. |
| II. <u>Safety</u> - Fire Drill went well. Teacher needs to utilize red & green cards appropriately.
<u>Dress Code</u> - concerns with school shirts and Hoodies. Zip-Up Jackets unzipped so uniform can show. Hoodies should be school colors (green, blue, white) or be a school club shirt/hoodie with logo, or be a college hoodie. Hoodies outside this realm should be removed in transition so that uniform is visible and can be put back on once students are in classrooms.
<u>Phones</u> - policy needs to be tightened to determine if confiscated phones are returned the same day.
<u>Inclement weather</u> - cell phones are not allowed in cafeteria during inclement weather procedures
<u>ID's</u> - when template will be ready |
| III. EPAC- schools should have teachers focus on using TEKS RS to plan effective lessons |
| IV. Counselors- PSAT Testing on Wednesday, Red Ribbon Week activities, Fall Festival on Oct 26. Encouraged teachers to fill out positive referrals! |
| V. Benchmark Testing- Materials are ready, information will be sent out after PSAT is completed. |
