Student Academic Achievement Strengths

We Continue to offer various strategies in order to assist in student academic improvement. We showed an increase in EOC.

- Algebra I scores increased by 8.3 points
- English II scores increased by 9.1 points

We showed a significant reduction in the number of students who received LOC and an increase in the number of students who regained credit through the LOC recovery labs held on Saturdays.

We were named an AVID National Demonstration School, a system that provide instructional strategies for teachers and involves a rigorous class-load for students.

Problem Statements Identifying Student Academic Achievement Needs

Problem Statement 1: English I - During 16-17 school year, only 16.4% of EDHS Sped students met standard on English Language Arts for EOC. **Root**

Cause: English I -Sped training on Guided Reading is needed for all Sped teachers; deliver of content to students was not aligned with general ELAR classes, tutoring was not prioritized, and co- teaching classes were not specifically monitored.

Problem Statement 2: English II -During 16-17 school year, only 8.7% of EDHS Sped students met standard on English Language Arts for EOC. **Root Cause:** English II Sped training on Guided Reading is needed for all Sped teachers; deliver of content to students was not aligned with general ELAR classes, tutoring was not prioritized, and co- teaching classes were not specifically monitored.

Problem Statement 3: In 2017, only 7.96% of El Dorado High School Special Education students met the standard in English 1 and 2 as compared to 46.67% in Science, 58.62% in Social Studies, and 60% in Math. **Root Cause:** Special Ed. students struggle in reading ability and do not receive remediation to become better readers; English courses are focused on delivering content, not improving reading disabilities. Special Education teachers require professional development for ELA reading strategies (such as Guided Reading). Special Ed. teachers do not have common planning time with their general education counter p

Problem Statement 4: In 2017, only 46.67% of El Dorado High School Special Education students met the standard in Biology as compared to 58.62% in Social Studies, and 60% in Math. **Root Cause:** Special Education teachers do not have common planning time with their general education counterparts. Modifications were not used effectively, and technology was not used to flip the classroom or to provide class videos of lessons.

School Processes & Programs

School Processes & Programs Summary

El Dorado High School is implementing best practices to ensure student success. Our practices adapt to the needs of our population. Students will benefit from best practices. SCE-I coaches assist with the at-risk population by planning and executing remediation. They address struggling students through the following: morning and afternoon prescriptive tutoring, and a pull out program during the school day. They also plan tutoring and post schedules throughout campus, on the campus website and marquee. The implementation of Intersession Tutoring is organized by the SCE-I coaches with the assistance of Core Class teachers. This component addresses Loss of Credit, remediation, and EOC tutoring.

Instructional strategies

To help ensure student success, AVID strategies i.e. keeping a binder/ISN, and WICOR strategies are practices throughout the entire school. The AVID coordinator facilitates the tutorials that are practiced in each AVID section conduct PD for the faculty and staff. Students will continue write across the curriculum in all classes using quick write, and journaling. Students who are struggling with the state assessments will be enrolled in appropriate classes and/or morning tutoring (Reading, Practical Writing, Technical Writing and Independent Study, ACE-Math) which address their specific needs. Instructional strategies, remediation and tutoring will be facilitated and monitored by administration that will conduct walkthroughs and provide teachers with feedback through Euphoria and conferencing.

In order to address least restrictive environment we will continue to use the Co-Teaching model to address the Special Needs population. Through the guidance of the SCE-I coaches the campus TIAs will continue to work with this population. For students who have lost credit in their course due to attendance or grades; credit Recovery is available through the Compass Learning Lab. The Lab will be available for enrolled students after-school, Saturday School, intersession, and summer school.

Students will be encouraged to utilize The GO center which will continue to provide assistance and guidance in the area of college admission, FASFA, scholarships, etc. to all EDHS students. Students are able to access grades and attendance through the District Management system (Tyler). If a student is struggling with grades due to attendance or has Loss of credit, EDHS will address the matter through an attendance campus committee. This committee is composed of teachers, counselors, CIS member, and administration. They will address the student's absenteeism and grant the opportunity for students to regain his/her credits.

Technology

We are currently in our second year of being a DNA school. PD addressing technology is part of every 9wk rotation. We will continue to stay update with the technology in order to meet the needs of the 21st century student. Our School-wide Title I program consists of parent involvement activities, extended day and extended week for Math, Science, History and English, and four curriculum coaches (one for each core subject). Our State Compensatory Program (SCE) consists of two State Compensatory Education Intervention Coaches, they assist At-Risk students by conducting small group tutoring, reviewing data with teacher, coordinating intersession and training teachers in best practices. They address student's needs in areas such as: academics, attendance, and

discipline, a DAEP center, extended day and week for math and reading. We also offer PLATO Learning Lab for credit recovery, one teacher to run Compass Learning lab, and a CIS counselor that provides services for pregnant students, and dropout prevention professional development. The site-based decision-making team looked at last year's program evaluations, survey results, and the following data: EOC, TAKS, Attendance (students and staff), SAT, ACT, PSAT, PLAN, AP, IB

School Processes & Programs Strengths

Through Data talks/ PLCs teachers are able to plan together and provide prescriptive lessons in order to ensure student success. El Dorado High School continues to foster collaboration among new and veteran teachers in order to increase retention. Teachers had a common conference time (8am-8:40am) to meet by subject area and to review data, plan and collaborate in addressing the gaps in our student populations. Core content teachers also attend "Power Planning" specific for EOC in their respective fields. We continue to maintain a strong relationship with our community and community members serve on our SIT, interview committees etc. Businesses are welcoming our CTE population.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: Teachers feel that students are come to their classes unprepared for the level of courses that are taught. **Root Cause:** There is no alignment along the course, Clarity on difference between "hard" vs, challenging in the classroom.

Perceptions

Perceptions Summary

At El Dorado High School, the faculty and staff take pride in assuring that the safety of our students is our number one priority. We work hard in creating a climate of kindness and respect. People that enter our campus have to feel welcomed and safe. As visitors enter our campus, they are welcomed by the receptionist. They must then sign in and provide appropriate identification. They will then receive a visitor's pass in order to visit any other area of the building. In addition, all faculty and staff Employees are given El Dorado IDs free of charge and must wear them at all times in order to be easily identified. Students are also issued ID's, however if lost, there is a replacement fee. The building is kept secured by all faculty and staff; this includes Security and School Resource Officers (SRO) who are always present and roving throughout the campus outside school events. Faculty and staff are also well prepared for emergencies; they are trained and kept current in the Emergency Operations Plan (EOP) procedures. All teachers take an active part in monitoring and are assigned specific areas monitors through a rotation schedule that include the , they must stand outside of the classroom during transition and teachers at the end of hallways are assigned doors to monitor and close if necessary. Within the structure, we utilize cameras and software to constantly monitor activities. For extra security measures we use First Advantage software, this will alert us of Sex Offenders that may want to enter our campus. In the parking all employees must have a parking decal issued by campus security. We continue to embed the OLWEUS lessons, in order to combat bullying. One item that we continue to improve on are students not complying with the ID policy. We will continue target this for the 17-178 school year. Unfortunately, building security is compromised by rocks that are used to prop the doors open, these are usually placed there by students. We continue to address the need for all teachers to monitor during transition time. EDHS works hard to ensure that parents feel welcomed and are involved in their students education. A Parent Liaison works hand in hand with administration to ensure that parents have several opportunities to participate in activities. In order to be effective, and increase parental involvement, the Parent Liaison attends several staff developments throughout the year. Parents are invited to several conference and meeting, such as, Father Son Conference, Mother Daughter Conference, Latino Family Literacy, and Military Night. Parents are invited every year to volunteer and become as Aztec Warrior Parents and serve on several committees i.e. safety, School Improvement campus safety procedures EDHS becomes a safer Campus. The Tyler 360 Parent Portal continues be made available to parents and now is instrumental in student On-line registration. EDHS also has a Military Liaison who reaches out the Military community and helps keep the lines of communication open between School and Ft. Bliss. She works closely with Military families to insure that their transition into EDHS and the community are smooth and without issues. We are currently utilizing a call out system to send out information about, meetings, testing, School Activities, Parent Involvement, Graduation deadlines, Tutoring, Schedule changes, parent night, safety concerns, policy changes. Recently we have begun sending text messages and emails to parents. EDHS has a variety of Partners in Education continues to work collaboratively towards student success.

Perceptions Strengths

We are prepared to work with parents with the assistance of our Parent Liaison and our Military Liaison. The PIE coordinator made strides in including local business to also be part of the Aztec Community. We have also addressed bullying through the Essential 55 by Ron Clark.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: Building safety and security is compromised by rocks that are used to prop the doors open, visitors entering through unlock doors,

Root Cause: Students placing rocks, shortage of security

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

2	3	6	Project Based Learning during summer school. Our objective is for teachers to focus on the Main Ideas of their subject (Geo, Alg.. 2 and Pre Cal), and incorporate projects to enhance/address the main ideas. Many of the supplies we have ordered will be used towards these projects (markers, chart paper, pencils, etc.). We also ordered easel boards to have students work in small groups on problems that they will then teach their peers how to solve.
2	3	9	Monitor performance data through the use of a scanner that is connected to Eduphoria.
2	4	1	A differentiated curriculum will be provided to all GT students in core class settings. Advanced academic programs that serve GT students such as dual credit, IB, and AP will also be encouraged and supported. Materials such as reading texts, guest speakers, field trips, and technology will be purchased in order to supplement and complement these programs.
2	6	3	Provide Advancement Via Individual Determination (AVID) system in support of career/college readiness for students. Hire college tutors, and have college trips for students from various campus organizations.
