Demographics

Demographics Summary

H. D. Hilley Elementary is one of 48 campuses in the Socorro Independent School District. H. D. Hilley opened its doors in 1980 and serves predominantly low socio-economic families of Hispanic descent. H. D. Hilley serves approximately 650 students in grades Pre-Kinder to fifth grade.

The student population is 1.38% Anglo, 0.4% Asian, 0.15% American Indian, and 98.% Hispanic, 49.6% male and 50.31% female with a economic disadvantage status of 91.85%. The staff population is 1% African-American, 2% Anglo, 35.9% Hispanic, 16.22% male and 83.78% female with a range of 1-10 years of experience.

The overall mobility rate for the campus is approximately 14.63%, with a drop-out rate of 0%. The average daily attendance rate for students is 96.41%. The average daily attendance rate for staff is 93%, down from 95.10%. There were four teachers on FMLA throughout the year. All teaching staff needs to increase attendance rates to school to increase both student achievement and student attendance. There are a total of 154 discipline referrals this year, which is an decrease of 23.38% from last year's 201 referrals. In reviewing the referrals, it was easy to see that a handful of students had the majority of referrals for pushing, fighting or using bad language. The repeat offenders were seen by the counselor and some students were placed on behavior plans. We will keep an eye on these particular students and act quicker in addressing their persistent behavior problems.

H. D. Hilley serves 384 English Language Learner students, 14 students or 2.15% in the Gifted and Talented program, 12 students identified for 504 services, 90 students were reviewed by the RTI team with 83 of these students being identified as Tier III students, 62 students served through special education services and 19 students tested. Seven student are currently under Section 504 receiving dyslexia services or intervention. 1.87% of the student body has a military connection. PEIMS data indicates that 2.0% of our students are of immigrant status. Special education services include student in the following categories.

Speech impairment	<u>28</u>
Learning disability	<u>20</u>
Other health impairment	<u>6</u>
Autism	<u>3</u>

Demographics Strengths

The school had a total of 74 discipline referrals. A decrease from the previous year translating improving instructional time usage.

Student Achievement

Student Achievement Summary

The site-based decision-making team looked at last year's data and found the following results. The fall interim assessments in the areas of Reading, Math, and Science for 3rd, 4th, and 5th grade, provided us an indication on the areas that presented us with the greatest challenges. Third grade District Benchmark result for Reading was 75.24% in the fall and decreased by 5.72% points in the spring (69.52%); for Math, fall benchmark was 81.73% and decreased by 11.92% points in the spring (69.81%). Fourth grade District Benchmark result for Reading was 73.56% in the fall and decreased by 14.86% in the spring (58.70%); for Math, fall benchmark was 89.89% in the fall and decreased by 6.02% points in the spring (83.87%); for Writing, 78.16% in the fall and decreased by 15.94% point in the spring (62.22%). Fifth grade District Benchmark result for Reading was 72.18% and decreased by 2.26% in the spring (69.92%); for Math, fall benchmark was 71.21% and increased by 7.58% in the spring (78.79%); for Science, fall benchmark was 56.82% and increase by 3.79% in the spring (60.61%).

All grade levels were given data sheets that indicated the objective breakdown for individual student performance on each assessment. These assessment sheets included a comparative teacher analysis along with an overall percentage passing score. This data helped teachers monitor student progress every three weeks. The STAAR results for this school year are as follows: 3rd Grade STAAR 2016 Reading 81%, STAAR Math was 85%; 4th Grade STAAR Reading 2016-78%, STAAR Math 2016- 78%, STAAR Writing 2016- 76%; 5th Grade STAAR Reading 2016 -80%, STAAR Math 2016-93%, STAAR Science 2016-76%.

Kindergarten through fifth grade iStation reading reports indicate students' needs and suggested interventions that teachers can focus on a daily basis. Kindergarten Tier 1 students increased by 38%. First grade Tier 1 students increased by 19%. Second grade Tier 1 students increased by 23%. Third grade Tier 1 students increased by 5%, 4th grade Tier 1 increased by 1%, and 5th grade Tier 1 students decreased 5%. A need to pay close attention to reading instruction continues as we are inconsistent with growth patterns, based on the data. However, we have noticed that by practicing the unfamiliar vocabulary words the students will encounter has increased fluency and comprehension in iStation. Students have been practicing the milestones in class through the use of cooperative strategies, and we have seen a slight increase in mastery.

School Culture and Climate

School Culture and Climate Summary

Two-hundred of our third through fifth graders responded to the survey. The first thing that drew my attention was the areas of improvement. It is paramount for me to understand what our kiddos are thinking about their school, administrator and teachers. I've identified the lowest ranking answers by percentage point ranging from 3.28 to 3.34. The items include: students being recognized for good work (3.28). This indicates that more than 25 students either disagree or strongly disagree with them being recognized here at school. They are telling our committee that we are not doing enough to recognize their success. I need for our team to think of ways we can improve acknowledging good student work. Approximately 30 students believe their teacher does not listen to their ideas. This is nearly 10% of our third through fifth graders saying their ideas do not matter. Sound significant especially from the students that can voice their concerns and definitely something our teachers should be aware of. In addition, another 30 students indicated in the survey they are not treated with respect by their own peers. A rating average of 3.34 was identified for students not having fun learning at our school. Nearly twenty-two students either disagreed or strongly disagreed with having some sort of entertainment in their learning.

School Culture and Climate Strengths

The following answers were identified as strengths for H.D. Hilley Elementary Students. To begin, with a rating average of 3.65, and with about 263 students stating that they can be better students recognize this. We have set high expectations for all our students that help them push themselves into knowing they can and will do better. Subsequently, only eleven out of 271 students disagreed that "Very good work is expected at my school". We should all be on the same page that is the goal. Ensuing, there are six students not agreeing with their teachers believing the student can learn. The majority of our students either agreed or strongly agreed with this statement. Again, this is definitely school strength. Two of the highest ratings entail the student belief that family wants or believes the child can do well in school. We will continue to build on the social emotional aspect of how their support system cares and believes in our students.

Staff Quality, Recruitment, and Retention

Staff Quality, Recruitment, and Retention Summary

All of our teachers and instructional paraprofessionals fulfill highly qualified requirements. Our new teachers participate in the district Becoming a Friend for Tomorrow's Future (BFF) new teacher mentor program allows first year teachers the opportunity to partner with mentors and learn the foundation of becoming effective teachers. The teachers will learn best practices, activities and strategies to have a successful year. Our grade level teams are part of our professional learning community which meet weekly to build capacity. Hilley PLC's serve to two broad purposes: (1) improving the skills and knowledge of educators through collaborative study, expertise exchange, and professional dialogue, and (2) improving the educational aspirations, achievement, and attainment of students through stronger leadership and teaching.

Staff Quality, Recruitment, and Retention Strengths

Most of the attrition H.D. Hilley had this year was do to lower enrollment numbers rather than teacher burn out. We have had good applicate pools for our positions which has allowed us to be very selective in the hiring process to ensure we hire the best person for our students.

Curriculum, Instruction, and Assessment

Curriculum, Instruction, and Assessment Summary

H.D. Hilley PLC's function as a form of action research—i.e., as a way to continually question, reevaluate, refine, and improve teaching strategies and knowledge. Meetings are goal-driven exchanges facilitated by SCE or administration. Participation in meetings is a school-wide requirement that all faculty members participate. Teams engage in prepared dialogue that allows teachers to focus on specific problems and strategies—How do I teach *this* particular student better? How do I teach this more effectively?—rather than on general educational goals or theories. Teachers, for example, will discuss and reflect on their instructional techniques, lesson designs, and assessment practices, while administrators may address leadership questions, strategies, and issues.

Our assessments follow a backward design method and typically involve three stages:

1. Identify the results desired (big ideas and skills)
 - What should the students know, understand, and be able to do?
 - Consider the goals and curriculum expectations
 - Focus on the "big ideas" (principles, theories, concepts, point of views, or themes)
2. Determine acceptable levels of evidence that support that the desired results have occurred (culminating assessment tasks)
 - What will teachers accept as evidence that student understanding took place?
 - Consider culminating assessment tasks and a range of assessment methods (observations, tests, projects, etc.)
3. Design activities that will make desired results happen (learning events)
 - What knowledge and skills will students need to achieve the desired results?
 - Consider teaching methods, sequence of lessons, and resource materials

Data is discussed off our data walls which provide a visual representation of students progress and gives it a face. It also provides an interactive display of our school and demonstrates change over time in non-threatening method of accountability, which leads to building capacity and accounts for the results of our work.

Curriculum, Instruction, and Assessment Strengths

Staff development during the summer has solidified grade level team changes and assisted planning roles. No major district initiatives to roll out. This allows us to focus on our Daily Five, Fundamental Five, Guided Math and Empowering Writers. We also have year two roll out of Achieve 3000 and Living With Stem.

Family and Community Involvement

Family and Community Involvement Summary

Our School-wide Title I program consists of supporting parents socially and academically. In order to link school and home we provide our students with academic planners to keep the line of communication open with parents. Information on upcoming events, homework assignments and academic or discipline issues are shared in the planner. We also use our callout system to notify parents.

Parents are provided with weekly sessions on topics ranging from understanding classroom assignments to learning how to deal with student issues. The parent center is supplied with items such as paper, pencils, pens, a computer and printer, ink, and light snacks for their activities and workshops.

Parents are part of our School Improvement Team where they can participate in our community of learners. The parents that serve volunteer from our Volunteer Program. Our program has various opportunities for our community to support our school, one is the Mustang Guardians. This group of volunteers assist with the security of the campus as their primary duty.

Throughout the year we have three annual events that our community shares with us: Fall Festival, Christmas Program and our Mother's Day Celebration. We also celebrate Terrific Kids every month.

Family and Community Involvement Strengths

Our Terrific Kids program allows us to talk to a large portion of our school every month. The celebration starts off with breakfast with your child and concludes with a certificate, a prize from our partners in ed, and a picture that is posted in the main hallway.

School Context and Organization

School Context and Organization Summary

Our goal as a school is that our scholars perform in the top five campuses in the district this next year and to receive an all star performance again this will require urgency and a strong commitment. To achieve this we must be consistent in our PLC's. We will monitor all assessment tools and change instruction accordingly. Our common planning time will have detailed agendas and expected outcomes checklist.

Title I and State Compensatory Education Program (SCE) pays for one intervention coach, who trains teachers in best practices for assisting at-risk students in math, reading, writing and science during school, during Saturday camps, and/or during intersession. Additionally, to assist students during the day, we have two temporary instructional aides, the library aide, and the At Risk Aide who work with the students to provide assistance in the classroom. The students are pulled out of class one on one or as a small group if they need more focused instruction on a concept. To enhance tutoring for our youngest students, the P.E. aides are utilized to provide tutoring early in the morning when they don't have assigned P.E. classes. The instructional aide assigned to Living With Stem Lab provides tutoring when there are open slots in the schedule.

Teachers will be required to recommend at least two students each semester to be tested for the G/T program. To help teachers identify students who might be Gifted and Talented, professional development will be provided at the beginning of the school. In addition, information nights will be held for parents to inform them of what characteristics to look for in a Gifted and Talented child.

An important part of our Title I program is to extend and enrich the students' learning time by: providing teachers extra duty pay to provide tutoring, providing substitutes for teacher staff development and providing targeted, strategic staff development on required district days. Tutoring sessions are held after school, during intersession, and/or on Saturdays.

School Context and Organization Strengths

Our school is poised for the next level, with the changes made in teacher grade level assignments, we have enhanced the dynamics of our PLC's.

Technology

Technology Summary

H.D. Hilley follows several modalities of blended learning. Our teachers use a face-to-face driver – where the teacher drives the instruction and augments with digital tools such as IWB and Web based basal reading books. In our daily five and small group instruction teachers use a rotation – where students cycle through a schedule of independent online study and face-to-face classroom time. For Istation our teachers use a flex – where most of the curriculum is delivered via a digital platform and teachers are available for face-to-face consultation and support. During sponge time in any computer lab students can self-blend – here students choose to augment their traditional learning with online course work. The use of achieve 3000 and Living with Stem have all of these combinations. All of our learning is monitored and assessed with BOY, MOY, EOY and On Demand.

Technology Strengths

With Achieve3000's focus on nonfiction science and social studies content, as well as academic vocabulary, intervention students do not miss out on essential grade-level, standards-aligned instruction while engaged in Tier II, Tier III, or Special Education instruction during targeted instruction in the general classroom or intensive intervention in a specialized classroom.
