

30-Second Reflect and Connect Student Presenter Connection Protocol

The purpose of Collaborative Study Groups is to think critically about your learning, build knowledge, and create an understanding of important concepts.

Directions: The student presenter will use the “30-Second Reflect and Connect” to verbally reflect on his/her learning that occurred during the process and connect it to other important ideas before the next student presents a new Specific Question.

<p>Explain the concept that you learned regarding your Specific Question.</p>	<p>The concept that I learned about my Specific Question is...</p>
<p>State the importance of this concept.</p>	<p>This concept is important because...</p>
<p>Give an example of this concept as it relates to real life or the subject.</p>	<p>For example, the concept of _____ relates to _____ because...</p>
