Strategic Priorities

ECHS Priorities	Benchmark	Strategies/ Systems
<p>We will continue to improve our recruitment efforts to target students who are at-risk of dropping out of school and students who might not go to college.</p>	<p>Benchmark 1: Target Population</p>	<p>Reflecting on these past two years enrollment, we missed the target enrollment demographics. For next school year, we will heavily recruit students in those areas. This is critically important for the success of our Early College since our vision is to create social reform by empowering students through education. One area that we will concentrate in is Economically disadvantaged, since these students are at greater need.</p> <p>Strategy</p> <ol style="list-style-type: none"> 1. Targeted recruitment through AVID and WIN programs 2. Begin recruitment efforts earlier in the year 3. Include elementary schools in the recruitment plan.
<p>We will continue to develop our leadership team and work on including community and business partners as we look at long term goals for the ECHS and our students as they transfer to a four-year college.</p>	<p>Benchmark 3: P-16 Leadership Initiatives</p>	<p>As we continue to add a third year to our Academy, building stronger partnerships with our business and community partners is a top priority. These partnerships allow us to create exposure possibilities for our students. Through community liaisons in industry students can get a clearer picture of the current workforce requirements. Additionally, this is tied to the success of the academy because through them we can provide our students with a clearer pathway and transition services from high school to career.</p>
<p>We will continue to strengthen our readiness programs for TSIA2 and develop effective bridge camp programs to better prepare our students for academic success.</p>	<p>Benchmark 5: Academic Rigor and Readiness</p>	<p>As we move forward in offering an associate's degree, one of the top priorities is ensuring students are qualifying for dual credit course work. In order for students to qualify for these courses, they need qualifying scores on the TSIA Reading, Writing and Math. Our readiness programs have to be comprehensive in nature in which we provide students one to one support through learning management systems such as Edmentum and Shmoop and direct instruction from qualified staff.</p>
